Give three observation / suggestions to improve the overall teaching – learning experience in your institution. \*

it is one of historical science College in central India proudly said well. but It is my experience since two years.

Teaching learning methods is partially good except 1-2 teachers ,I will be appreciated there work and thanks for being with me and support me.

The institute never takes active interest in promoting internship, student exchange, field visit opportunities for students. And never give me even one chance to participate in extracurricular activities. And if organised any program it is like it's formalities.

Institute's teachers intrested in political propaganda,but not to encourage even one students in academic.

Lastly I must mention That it best college for complete your degree only but not to learn things that you should learn in degree.
