-

Good

Excellent

Everything needs to be improved

No

No need to improve

College is gives us very good learning experience . It provides us opportunities to lear and grow.

1. Teachers should interact each and every student during the lecture
2. Sometimes teachers are boring, so they Have to be more friendly
3. Teachers should teach practically if possible

Have to complete syllabus
Taking class test

Greatfull to be a part of institution

More practical and field work is needed.
More class tests are needed

1. Incrementation of practical work
2. Organising internships and student exchange
3. Compulsory field trips

Conclusion

They should provide job and career skills

There should be more intellectual classes and skill development process should be included

It can be more practice rather than theoretical

1. Instead of CHB teachers who are recently passed out the department must engage permanent or at least experienced teachers.
2. Regular classes and well informed time table must be followed by the department.
3. The students must be treated with some dignity so that the moral gets maintained instead of treating them as third grade citizen.

Teachers of environmental science department won't come to class and even if they come they are 20mins late. They didn't even complete our syllabus.
And in case of zoology they too didn't complete syllabus and as all teachers are new in teaching they teach like they revising everything.
Very few problems with chemistry..

Classes are not clean, too much mosquitoes are there, washrooms and wash basins are also not clean

Regular lecture
Best teaching
Provide notes
Make personality of students

Everything is good

Always tells about learning skill and motivate

Teachers are always helping and kind

All ok

Yes

- 1) Facilities for performing physics practicals are made available properly.
- 2) The teachers are approachable and guide us in all our doubts.
- 3) It will be better if ICT tools are used more frequently thereby making it easy to understand difficult concepts and phenomena.

Proper Cleanliness maintain

(1) All equipments and Chemicals should be available in chemistry Lab..... ..

1. Making concepts easy and simple.
2. Using significant ICT tools for better understanding.
3. Maintaining good relation and friendly nature with students. 😊

Teacher should be provide notes although it is beneficial for students

Inclusion of visual learning with the help of showing related pictures, species on a projector or even live samples.
Practical based approach.
Regular assessments to keep the gained knowledge in check.

I am satisfied

Very poor quality teaching.

Extra curriculum activities

My Institute learning and teaching is good

Need teachers who can explain properly.

Include programming languages

Including programming language,take some other activities about internships and placements.

Experience is very good 👍

Everything is good

It's fair

Should use ICT tools such as LCD, projector, multimedia

Use of modern methods of education i.e. through smart class, slides,etc

Attendance through fingerprint scanner

It should be much practical.... Should not be always grades and percent oriented.

1. Electronic means of teaching
2. Better lab equipment facilities

Provide opportunities to learn and grow. Continue quality improvement

No comments

- 1) no extra curricular activities organised in college
- 2) no activities to improve and enhance bond between teachers and students
- 3) No sports activities in iur college which is very important for over-all development

Please complete full syllabus before exams. And please provide us electronics teacher to teach us well.

Completion of the syllabus, only two teachers for certain subject not more than that, it becomes confusing if there are many teachers for certain subject or chapter, teacher should never be partial to anyone

Everything is good

Teachers should use digital board and projector
Teacher should interact with every student

Student exchange program, more research related activities, invite scientist and professors from reputed institutes for motivation

- 1)asking students about the topic that they taught.
- 2)Communicate well, and with varied audience.
- 3)try to teach them just as a students not aa a scholars or teacher.

There are partiality occurred

No need,all the teaching staff is very good and friendly

Should use Projector.
Practical explanations should be provided.
More and more example should be taken to make us remember.

Nots should be provid by the teacher's and
Should be provide teacher fot the electronic subject

Conclusion
Encourage cooperative learning
Create a welcoming environment

Use better graphics and visual media to engage students well.

Teachers should behave friendly

All the teachers are very good in the case of being free, helping in studies and also give motivation.

Need to develop practical knowledge, extra curricular activities, concept about the given topics

Learning is not just completion of syllabus, so I would suggest to make this teaching more familiar to students.

1 . Student-centered approach: Adopting a student-centered approach to teaching can help students feel more motivated and engaged in the learning process

New technology monthly updates can be given. Activity based learning may be implemented.

- 1.All the teaching staff must respect each teachers teachings methods.
- 2.Teachers must help students in knowing there weekness and sould make them to work on those weekness
- 3.Also partiality between students is unfair and must be avoided .

All over development of the system in college

More emphasis on skill based learning and promoting entrepreneur skill needed

All teachers are good in teaching

Must use ICT tools

- 1) Teachers should use electronic structures such as projectors whenever necessary so that they can understand easily.
- 2) Should discuss the assignments properly.
- 3) Practical demonstration is must for specific subjects.

All teachers teach very nicely.

Everything is best, we've best teaching staff, curricular activities are going well, NSS also

Allow best faculty for teaching
Give proper study material

Use ict tools and digital game based learning

- 1) if possible, spot visit is recommended in order to know the actual use of respective subjects in M.Sc.
- 2) Along with theory, discussions regarding practical applications of the related topics

teachers should take extra classes

The teachers are always helping and kind.

Teachers who teach well should kept in institution

Mike will be , dark ink of markers and

I think the 1) encourage cooperative learning
2)ask for students and faculty feedback
3) encourage the good connection between teachers and students

Concepts should be explained with the help of examples

ICT Tools (lcd,projector) must include while teaching,

1.make teaching two way interaction
2.use of ict tools for better understanding 3.make concept simpler and easier for understanding.

1.Some time students make a mistake so please accept that
2. Sometimes students are in not good situations hope teachers understand that
3. Try to talk with students when they really facings some problems

Continuous quality improvement

First , they didn't know that..... my teaching is able to understand Students or not ?

1. Try to reach every students and ask for their doubts.
2. Encourage cooperative learning.
3. Build in daily practice.
