

Induction program on “Reaching to Unreached, Community Based Interdisciplinary Approach”

An induction program, “*Reaching to Unreached, Community Base Interdisciplinary Approach*” was organised on 24th February 2024 at 11am in Government Institute of science, Nagpur.

The Chief Guest of program was Dr Prashant Kadu, the Dean- Faculty of Interdisciplinary Studies, RTM Nagpur University, Nagpur, while the Honorary Guest was Dr Narandra Chaudhari, Dean R&D, TGPCET, Nagpur. The program's president was Dr K. G. Patil, Head of the Department of Zoology (IOS).

Approximately sixty students from various programmes actively engaged in the event. Professor Sarweshwar Kasarla gave the program's opening remarks and gave students advice on case studies and their value to today's youth.

In his inspiring speech, Dr Prashant Kadu gave students advice on “Reaching to Unreached” by community service. He places a strong emphasis on the necessity of interdisciplinary community connections for new knowledge production and sustainable growth. He gave the pupils advice, saying that we need to be happy in order to be motivated.

Students found that Dr Narendra Chaudhari's technical session was very helpful in shaping their carrier. Throughout this technical session, every student contributed by offering their opinions on broad inquiries about curriculum and research. By highlighting the issues young people in the workforce confront, he dispelled their doubts.

Dr K. G. Patil provided a thorough overview of both sessions in his presidential speech and urged students to take part in this kind of interdisciplinary learning. The last vote of gratitude was delivered by LACF President Shreya Hole.

Dr Jairam Khobragade, the Director, appreciated all the activities necessary for the success of this programme. Mr. Anshul Patle and Ms. Srushti Borkar worked hard to make this induction programme a success.
